

HYLAN CALLS FOR ROUND-UP OF KLAN

Mayor of New York Sends Instructions to Police Chief From Indiana

CLASSED WITH THE REDS

French Lick, Ind., Nov. 24.—Mayor Hylan instructed Police Commissioner Enright by telegram yesterday to go after the Ku Klux Klan and drive its members out of New York before the organization can get a foothold.

Disturbed by reports reaching him before leaving home, the Mayor told the Commissioner to run down clergymen or any others trying to organize the Klan and treat them all as if they were anarchists and bomb throwers. The police have ample power to proceed under the conspiracy provisions of the penal law, the Mayor states. He criticizes President Harding and the Federal Administration for not taking a firmer stand in the Louisiana case.

Mr. Hylan's telegram said:

"The dispositions from New York this morning indicate that the Ku Klux Klan is getting busy in our city. If this is so, I desire you to treat this group of racial and religious haters as you would the Reds and the bomb-throwers."

Drive Them Out of City"

"Drive them out of the city as quickly as you discover them. Assign your most expert detectives to this work, and as you secure the names of any of the organizers or members of this secret organization be sure that their names are given to the press, so that the citizens of our city may know who are supporting this vicious and destructive secret society."

"It is unfortunate that the Federal Government did not take a more firm position in this matter when the Governor of Louisiana appealed to His Excellency, President Harding, for Federal action."

"The Ku Klux Klan, or any secret society of similar character and purpose is a menace to our city, State and Nation. The people of the city of New York will not tolerate their existence within the confines of our metropolis."

Leave No Stone Unturned

"Do not leave a stone unturned to ferret out these despicable, dishonest persons who are attempting to organize a society the aims and purposes of which are of such a character that were they to prevail the foundation of our country would be destroyed."

"I noticed in yesterday morning's World that the Rev. Dr. John Brown Stratton and the Rev. Oscar Heywood, D. D., of the Calvary Baptist Church, are alleged to be connected in some way with this secret organization. If this is so a little police attention along this line would be of great service."

"Go after the Ku Klux Klan and do not let them get a foothold in New York City. It is to be regretted that men of the cloth, regardless of their denomination, would have anything to do with an organization whose purpose is as vile as that of the Ku Klux Klan. These people can be dealt with under the conspiracy provision of the penal law of the State of New York."

Washington, Nov. 24.—Reported today that members of the Ku Klux Klan to interfere with the United States mails in Louisiana and Texas yesterday brought the organization into direct conflict with the Federal Government.

Agents of the Department of Justice and of the Postoffice Department were at once assigned to investigate this development, which brings the Klan within Federal jurisdiction.

Officials of the Post office department with their mail are being searched, it was stated at the Post office, to determine that records were being investigated and had also been forwarded to the Postoffice Department.

The complaints were made to the chiefly with activities of Klan members inside the postal service institutions or delay or withholding of mail.

In some instances mail boxes were found to have been lost or was missing.

The Philadelphians were surprised at the courtesy shown him in asking for some time to recover from his injuries.

After-Dinner Tricks

No. 327—Naming the Cards.

A pack of cards is cut into three piles. Touching the top card of one pile, the performer calls out the name of a card (six, two of spades). He then picks up that card. Touching the top card of the next heap, he calls out "Eight of clubs" and picks up the card. Touching the third card he calls out "King of diamonds" and picks up the card. The bottom hand then turns up on the table. The cards are the two of spades, eight of clubs and king of diamonds; the very cards he named!

Before doing the trick the performer secretly noted the top card of the pack, which was the two of spades. When he cut the pack into three piles, the two of spades was naturally on top of one pile. The performer, however, touched a card on one of the other heaps and called "two of spades." He picked up that card and saw it was the eight of clubs. Touching the top card of the second heap, he called "Eight of clubs."

Picking up the third card, he saw it was the king of diamonds. Then, touching the real two of spades, he called "King of diamonds." Thus at the finish, he laid down the three cards that he had named.

Incense Burning in Temples as Monarchs Bring Gifts

Peiping, Nov. 24.—It is unlikely the Emperor will visit America following his marriage," Urata Tsaito told a correspondent yesterday afternoon.

Prince Tsaito, who is the Emperor's uncle, and head of the Imperial clan, and who probably would be regent if the empire still existed, received the correspondent yesterday in his palace, thus breaking all precedents.

Incense is burning night and day in several of the imperial temples along lines of monarchists are bringing gifts.

The poverty of the imperial household has necessitated reducing the cost of the nuptials from \$5,000,000, which the Emperor wanted to spend, to \$300,000.
